Dear Ms. Calmuschi,

RE: Hurricane

This is in reference to your email of October 22, 2019, wherein you requested our comments on the acceptability of the subject product for use as a laundry detergent in food processing establishments.

Based on the information submitted, we can advise that we see no reason to object to the use of this product as proposed in food plants provided that:

- a) There will be no resulting contamination of food during its use and storage; and
- b) All laundered fabrics for use in food plants are thoroughly rinsed with potable water after use of the product (It is assumed that in the case of automatic washers, there is an automatic rinse cycle).

We trust that the foregoing will be of use to you.

Yours truly,

Marina Vivas
